Royce Micro-Cap Trust, Inc. (NYSE-RMT)
CUSIP 780915104

The distributions, optionally payable in additional shares of Common Stock, or in cash by specific stockholder election, are to be paid on December 23, 2024 to stockholders of record at the close of business on December 12, 2024 (ex-dividend on December 12, 2024). The price of shares issued for reinvestment will be determined on December 19, 2024.

Fund	Distribution Per Share
RVT	\$0.44
RMT	\$0.21

The reinvestment price is determined on the valuation date by the lower of the last reported sale price at the close of regular trading on the Funds' listing Exchange or the net asset value per share on the valuation date (but not less than 95% of the last reported sale price on that date).

The Funds estimate that they have distributed more than their income and net realized capital gains; therefore, a portion of your distribution may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund's investment performance and should not be confused with 'yield' or 'income'.

Each Fund's estimated sources of the distribution to be paid on December 23, 2024 and for 2024 year-to-date are as follows:

Estimated Allocations as November 30, 2024

Fund	Distribution Per Share	Net Investment Income	Net Realized Short-Term Gains	Net Realized Long-Term Gains	Return of Capital
